## ASKS FOR A WAR

Dr. J. E. Buckley Would Have Mexico Invaded by Army of United States.

HE SUES PRESIDENT TAFT

Chicago Physician Alleges That Germany and Japan Are in Scheme to Land Troops.

President Taft has been sued in a court of law to compel him to perform administrative or, as lawyers would say, "ministerial" acts. Dr. James Edward Buckley, a practicing physician of Chicago, who has twice instituted proceedings against Secretary of State Philander C. Knox, brought an action against President Taft in the Washington District supreme court and asked that a mandamus be issued to compel the chief executive to show cause why he should not be compelled to direct attention of congress to the conditions in Mexico and recommended that an army for the conquest of that republic be promptly dispatched thither by way of the gulf and the Pacific.

This should be done, the complainant states, to prevent a "ruinous war, which would entail the loss of the Philippines, the Hawaiian Islands and the canal," through the co-operation of the Japanese now in Mexico with German troops.

Dr. Buckley contemplates an invasion of Mexico by the Germans to "enforce the death penalty on Mexicans for the murder of German subjects and an assault on a German woman." The president must appear in court in person or by attorney if the court should entertain the complaint. FILES THE PAPERS PERSONALLY.

The suit was filed by the physician personally. On Aug. 9 and again on Oct. 3, both of last year, Dr. Buckley sued in the same court for a mandamus against Secretary of State Knox to compel him to perform certain acts.

Both suits were dismissed. The president is accused of "indifference toward the life and liberty of Americans and others residing in Mexico." It is declared that a week before the last adjournment of congress the chief executive possessed information which would have justified an army and navy demonstration down there. He demands to know why congress was not informed about it. The sending of the soldiery to Texas is characterized as a political move.

The Diaz administration is called a 'Wall street exporting agency," with Henry Taft, brother of the president. as its "chief attorney." The president is charged with having embarrassed and handicapped the insurgent party | value. in Mexico by mobilizing the army on view, and the physician thinks he "communicates his viewpoint to the president." This, he declares, can be confirmed by Attorney General Wickersham, who is mentioned in the petition as Henry Taft's former law part-

Details of alleged holdups, robberies and other unlawful acts are set out in the petition. The cost of filing the petition was \$10, which Dr. Buckley paid.

#### GOLD FOUND IN IDAHO.

Chinese Trader Tells of Discovery Made on Exploration Trip. Placer ground rich in gold has been discovered in the Blackfoot district in northern Idaho, ninety-three miles southeast of Spokane, by Ah Yen, a Chinese trader, according to his statements to officials of the United States Hogs. Cattle. Sheep. customs house in Spokane on return-Chicago ... ..... 26,000 18,000 20,000 ing from an exploration trip along the Washington-Idaho border.

> The deposits, which are four miles from a flowing stream and require not less than fifteen miles of flumes to convey water to the gravel, were found more than thirty years ago by two Chinese prospectors, who were killed and robbed by a white man. Yen says that a woman who sewed the poke to hold the miners' gold told the rustler of the find of the Chinese and urged him to locate claims. Instead he murdered the miners and carried off their nuggets.
